Bath Masters

"Otter-ly" Amazing Bathroom Renovations

The Project

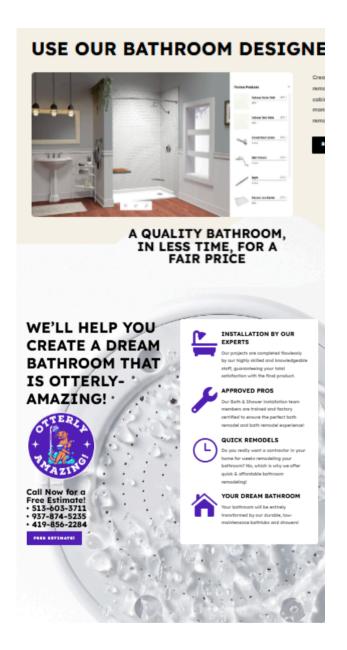

Bath Masters, a leading bathroom renovation company, faced significant challenges in gaining visibility for their primary services in Dayton and Cincinnati. Despite providing top-quality renovations, they struggled to rank for crucial search terms related to bathroom conversions, remodels, and renovations in their target areas. Previous investments in SEO and PPC campaigns had yielded poor results, with wasted advertising budgets and little to no improvement in online visibility. These experiences left them frustrated and uncertain about the potential of digital marketing to drive real business growth.

We stepped in to address these challenges and transform their online presence into a powerful lead-generation tool. By analyzing their local markets and understanding their unique pain points, we developed a comprehensive strategy to target high-value keywords in their service areas.

Simultaneously, we optimized their paid search campaigns to eliminate wasted spend and maximize returns. The objective was clear: to position Bath Masters as the premier choice for bathroom renovations in Dayton and Cincinnati while delivering tangible, measurable results to restore their confidence in digital marketing.

Bath Masters

"Otter-ly" Amazing Bathroom Renovations

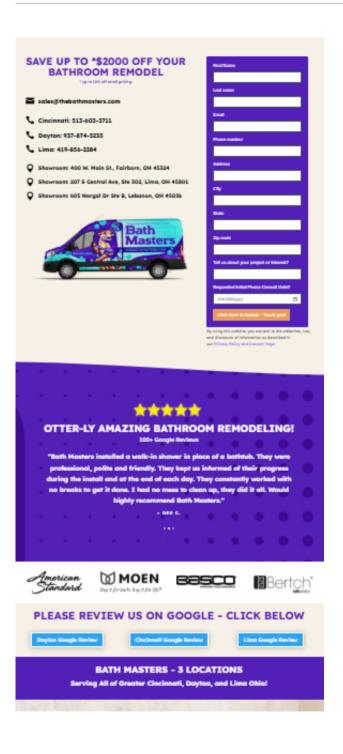

The Solution

To address Bath Masters' visibility challenges. we completely restructured their website to enhance both user experience and search engine optimization. A key part of this effort was building dedicated location pages for every town and city within a 20-mile radius of their two main service areas, Dayton and Cincinnati. These pages were carefully optimized to target high-value keywords specific to each location, ensuring the website aligned with the search intent of local customers. This approach provided a clear and organized structure, making it easier for search engines to index the site and for potential customers to find relevant information quickly.

In addition to the site restructuring, we implemented a targeted link-building strategy to establish authority and trust for the website. High-quality backlinks were built to the main domain, the newly created service areas page, and the individual local pages. By directing link equity to these strategic areas, we strengthened the overall domain authority and boosted the visibility of key pages in search engine rankings. This comprehensive solution not only improved the site's organic traffic but also positioned Bath Masters as a trusted name for bathroom renovations across their target markets.

The Results

The results of our efforts were transformative for Bath Masters' online presence and lead generation. Website sessions increased by an impressive 78.38%, climbing from 2,747 to 4,900 sessions within a short timeframe. Engaged sessions followed a similar upward trend, rising by 81.21% to a total of 4,630 sessions. This increase in traffic was accompanied by improved user engagement, with an average engagement rate of 94.49% and over 13,600 page views, showcasing the effectiveness of the newly organized website structure in keeping users engaged and driving them toward conversion points.

Conversions saw a remarkable growth of 83.05%, increasing from 531 to 972 total conversions. The newly built location pages played a significant role in capturing local search traffic, with keywords like "bathroom conversion Cincinnati" jumping from position 20 to 9, and "bathtub conversion Cincinnati" climbing from 10 to 4. Additionally, high-quality backlinks boosted the domain's authority, contributing to improved rankings across 53% of tracked keywords. These results not only helped Bath Masters dominate their local markets but also restored their confidence in digital marketing as a valuable tool for growing their business.
